Chinese ink painting is one of the oldest continually practiced art forms in the world. It first appeared in China in the fifth century, and soon traveled to Korea and then to Japan. As old and deeply rooted in East Asian aesthetics and meditation as it is, ink painting is credited with influencing the development of Western modern art. Its minimalist approach to painting continues to have enormous appeal. Artist and teacher Sungsook Setton, who learned the techniques with Chinese and Korean masters in her native South Korea, brings new excitement to this age-old art. While teaching the traditional disciplines for holding and using the brush, she shows students how to turn the techniques and inner meditation toward interpreting their own world: city views, music, and the essence of contemporary life.

The aesthetic and symbolic properties of plants and gardens are enjoyed the world over, but this book focuses on 200 of the plants which enjoy particularly high esteem in The Orient. Oriental Plants presents these specimens by means of beautifully hand-drawn plates. It may come as a surprise to many people that the majority of the cultivated plants and trees we are so fond of here in the western world originally hailed from China and the Orient. The Chinese revere the plum, orchid, bamboo and chrysanthemum as the four gentlemen, believing that they possess incomparably noble qualities; and for the Japanese, cherry blossoms symbolize love and hope. This has led to a longstanding tradition of painting plants that developed into a significant style of painting. The book is firmly rooted in this tradition, and of particular importance is the way in which it has been produced; printed on paper scroll which is as thin as silk, it is bound using traditional methods.

Try your hands at these historically and culturally important methods, and create some beautiful paintings of your own. Chinese painting is an ancient art that has evolved and become refined over many centuries. Artists brush ink and color pigments onto silk or paper using a variety of techniques, with two main approaches: gongbi a traditional and realistic style based on line drawing, and xieyi style, a freehand method that uses fewer strokes to suggest objects in a less literal way. Painting themes generally fall into three categories: figure, landscaping, and bird-and-flower. Chinese brush painting is mainly presented in lines, shades and white space to express the feelings about nature, social phenomena, and the very essence of the universe. The framework for this expression is often traditional: certain subjects carry cultural connotations that are well-known and imbue the painting with a layer of meaning beyond face value of objects shown. The traditional subjects such as mandarin ducks, butterflies, and the 'Four Gentlemen' (plum blossoms, orchids, bamboos, and chrysanthemum) are examples that contain this rich cultural meaning. Readers will learn first about the tools and materials, then painting techniques. Early pages explore the very basic painting methods and subjects—perfect for beginning painters—but continue to build skills for painting plants and animals of increasing complexity. Chinese Brush Painting illustrates several Chinese brush painting techniques with the use of different tools, brushwork and color mixing. With the step-by-step projects, you can first follow the introductory lessons to learn the necessary skills of brushwork, usage of paper, and characteristics of water, ink and colors; then follow the advanced lessons to learn the compositions and more complicated color applications.

The fluid lines and graceful strokes of Chinese brush painting make it a rewarding pastime, which, with practice, can produce beautiful and elegant results. This book introduces you to the basic equipment and techniques of the style, and progresses through a series of projects that allow you to practice and refine your strokes.

Mindful Artist: Sumi-e Painting teaches you to create your own beautiful, Japanese-inspired ink wash paintings while cultivating a mindful approach to making art. Centuries ago, Buddhist monks used black ink and brushes to practice mindfulness and create gorgeously harmonious works of art called "sumi-e paintings." The popularity of sumi-e, or ink wash painting, continues to this day. Mindfulness remains an essential element of sumi-e painting, allowing artists to focus on their surroundings, live in the moment, and feel present—thereby reducing their stress. Walter Foster's new Mindful Artist series encourages you to enjoy working in your favorite media to create art from a reflective point of view—an inspiring, relaxing experience that emphasizes the creative process, rather than the end result. These books are designed to help you move past creative obstacles, like a perfectionist attitude toward making art or self-defeating concerns about your personal talent and abilities. These guides will not only help you stay mindful throughout the process, but also to find personal meaning in the artwork you create. Mindful Artist: Sumi-e Painting opens with an introduction explaining the links between mindfulness and sumi-e and how they enhance one another. Sections on "The Four Treasures," as the tools needed for sumi-e painting are called; brushstrokes and painting techniques; and "The Four Gentlemen," or the most common subjects in sumi-e painting, ensure that you have a solid background before getting started on the simple, approachable step-by-step painting projects. Throughout the book you can find stunning full-page artwork, tips for remaining mindful while you work, creative prompts and exercises, inspirational ideas, and suggestions on how to add color to black ink pieces. Learn to practice mindfulness while you master the popular art of ink wash

painting with this inspiring and supportive guide.
