Designed to take students from "Reading Greek" to wider reading.

Global Warming: Causes, Impacts and Solutions covers all aspects of global warming including its causes, impacts, and engineering solutions. Energy and environment policies and strategies are scientifically discussed to expose the best ways to reduce global warming effects and protect the environment and energy sources affected by human activities. The importance of green energy consumption on the reduction of global warming, energy saving and energy security are also discussed. This book also focuses on energy management and conservation strategies for better utilization of energy sources and technologies in buildings and industry as well as ways of improving energy efficiency at the end use, and introduces basic methods for designing and sizing cost-effective systems and determining whether it is economically efficient to invest in specific energy efficiency or renewable energy projects, and describes energy audit producers commonly used to improve the energy efficiency of residential and commercial buildings as well as industrial facilities. These features and more provide the tools necessary to reduce global warming and to improve energy management leading to higher energy efficiencies. In order to reduce the negative effects of global warming due to excessive use of fossil fuel technologies, the following alternative technologies are introduced from the engineering perspective: fuel cells, solar power generation technologies, energy recovery technologies, hydrogen energy technologies, wind energy technologies, geothermal energy technologies, and biomass energy technologies. These technologies are presented in detail and modeling studies including case studies can also be found in this book.

Landscapes: Core Units and Human Elective guides students to top marks with relevant exam-focused content. This book comprises: Core Unit 1: Patterns and Processes in the Physical Environment Core Unit 2: Regional Geography Core Unit 3: Geographical Investigation and Skills Elective Unit 5: Patterns and Processes in the Human Environment KEY FEATURES: Core and Human Elective in one book, allowing for relevant cross-referencing A detailed Examination Guide gives guidance on answering questions, sample answers, and SRP hints and tips Written using the language of the examination Learning Intentions unpack the learning into manageable, focused lessons for students Exam Links provide relevant questions beside the text, putting the learning in context Check Your Learning boxes provide opportunities for assessment for learning throughout the chapters Skills Activities focus on bringing theory and skill together in preparation for examination questions Chapter Links show students where other areas of the course may be relevant to the learning Exam Tips let students know the important ways to get top marks when answering questions Examination Questions at the end of every chapter include Ordinary and Higher Level Part One and Part Two questions with up-to-date marking schemes Each student who purchases the Landscapes textbook receives a FREE eBook to use at home or in school! Destination Maths covers the complete Leaving Certificate Ordinary Level Mathematics course in a single-volume. The following features help hone mathematical skills and perfect exam technique: Wide selection of questions and graded revision exercises, with a strong emphasis on in-context questions Comprehensive, fully worked examples facilitate self-directed learning Helpful hints and tips scaffold difficult questions and encourage sound mathematical technique Snapshots of the booklet of formulae and tables help you to become familiar with the formulae as they appear in the exam Links across the syllabus reinforce learning by helping you make connections between topics Step-by-step

approach encourages all students to make attempts and thus earn partial credit marks in the exam. Something to Think About question at the start of each chapter fosters problem solving skills. Discussion Times promote group work and active learning strategies. Each Destination Maths comes with a FREE eBook! DIGITAL RESOURCES Digital resources for Destination Maths can be accessed by teachers on GillExplore.ie. They include: Animated PowerPoints with all fully worked solutions and to accompany Discussion Time activities. A bank of exam-style questions. Each question requires knowledge from multiple areas of the syllabus. The topics covered in each question are highlighted so that the questions can be easily used for revision or assessment.

Where Rory Crean's *How to Exceed Your Expectations in the Leaving Cert* is different from other study guides is that its ideas have been tested and refined through the eyes of someone who sat his exams just one year ago. Rory got straight As. In *How to Exceed Your Expectations in the Leaving Cert* Rory shares his detailed, structured and fail-safe blueprint to help students at every level get through that final crucial year of school. He does not come up with a rigid formula but instead a detailed set of guidelines that will allow each student to develop his or her customized approach. There is no getting away from it: the leaving cert is a challenge. But by adopting Rory Crean's strategies, students will be rewarded with peace of mind, exam results that will exceed their current expectations, and self-management techniques that will be invaluable for the rest of their lives.

*Cyclone* provides everything you need for Junior Cycle Geography. Written by experienced teachers with extensive knowledge of the Junior Cycle Framework, this package provides the perfect blend of clear content, trusted methods and innovation. Expertly fosters geoliteracy through clearly written, integrated and linked topics. A full range of Key Skills activities promotes active learning. Important geographical skills such as mapwork and data management are taught explicitly and are reinforced throughout the textbook. Short experiments and clear, everyday examples encourage students to interact with the world around them. Lively Fun Facts reveal fascinating details of our world, while Not-So-Fun Facts highlight important truths, notably on sustainability. Geography in the News and My Geography Moments introduce students to important new Classroom-Based Assessments (CBAs). End of Chapter Assessments, with graded Must-Should-Could success criteria, provide differentiation, promote reflection and help students to prepare for CBAs. Suggested Additional Resources on each topic encourage and guide further research. The *Cyclone* package includes: *Cyclone Skills Book* - Included FREE with the textbook: Written by best-selling Geography author, Charles Hayes, this book includes a comprehensive range of activities and exercises that reinforce content and ensure active, skills-based learning. *Cyclone Teacher's Resource Book* contains detailed work schemes and topic-by-topic suggestions that will enliven Geography in the classroom. A suite of digital resources, such as curriculum-focused videos, PowerPoints and quizzes, are all available on GillExplore.ie. Free eBook of the textbook, with embedded videos, weblinks and quizzes: see inside front cover for details. Adopting teachers also enjoy access to free eBooks of the Skills Book and Teacher's Resource Book. Gill Education eBooks are accessible both online and offline. The *Cyclone* Author Team STACY KENNY is a Geography teacher and deputy principal in Holy Child Community School, Co. Dublin. She has delivered in-service training on the new Junior Cycle for a number of years. ANDREW HORAN is a Geography teacher in St Kevin's College, Dublin 11. He leads in-service training on mentoring newly qualified teachers. CHARLES HAYES, Consultant Author and *Cyclone Skills Book* author, has vast experience as a teacher, examiner, Geography teacher trainer (UCC) and Junior Certificate Geography examination-drafter. He is Ireland's leading Geography author and his *New Complete Geography* is Ireland's best-selling Geography textbook and Skills Book.

Written by market-leading History author, Dermot Lucey, whose name is synonymous with History education in Ireland, *Making History* provides everything you need for Junior Cycle History. Specification Learning Outcomes are broken into clear, achievable Learning Intentions. The Nature of History strand is introduced and then reinforced in each chapter through skills-based activities and the frequent use of sources. Integrates recommended Junior Cycle teaching strategies, such as Think-Pair-Share, Hot Seat and Venn Diagrams. Analysing Sources sections encourage students to investigate intriguing historical questions and to hone the skills of the historian. The order of the chapters and the pictorial timelines at the start of each promote chronological awareness and help students acquire the 'big picture'. The frequent use of questions in headings promotes exploratory learning, encourages lively classroom debate and develops historical consciousness. Assessment features include: - Suggested CBAs for each topic - Focus Tasks for groupwork and research - Activities that encourage historical empathy - Range of questions on a vast array of primary and secondary sources. The *Making History* package includes: *Making History Skills Book* - Included FREE with the textbook: Written by Stacy Stout with Dermot Lucey, this book includes skills-based activities, and reflection and revision exercises. *Making History Teacher's Resource Book* with detailed schemes of work and 'How to' guides for incorporating technology and active teaching methods. A suite of digital resources including curriculum-focused videos, PowerPoints and quizzes, all available on GillExplore.ie. Free eBook of the textbook with embedded videos, weblinks and quizzes. See inside front cover for details. Adopting teachers also get access to free eBooks of the Skills Book and Teacher's Resource Book. Gill Education eBooks are accessible both online and offline. The *Making History* Author Team DERMOT LUCEY is an experienced teacher of History and an active member of the Cork History Teachers' Association. He is the author of a number of best-selling History textbooks, including *The Past Today* and *Modern Europe*. STACY STOUT is a History teacher, examiner and a member of the Cork History Teachers' Association. She is well known for her popular YouTube channel, Miss Stout's History Class, her @ MsStacyS page on Twitter, and for her creative, student-focused teaching methodologies.

*Skills for Exam Success Science* is carefully compiled using all available information on the examination, and teaches students how to study for the exam and perfect exam technique and skills. Comprehensive examination guide and practice book for Junior Cycle Science. Each chapter supports the revision of topics through a variety of questions, including exam-style questions and questions that link topics between

strands Clear Learning Outcome mapping highlights the topics covered Students are prompted to complete innovative mind maps, which will be invaluable study aids Tips and reminders help students maximise marks and give them the confidence to attempt questions on unfamiliar investigations, comprehensions and practical applications Specific chapter on calculations provides focused revision of these important numeracy skills Guide to the exam includes practical advice and an exam dictionary to help all students access challenging terminology Skills for Exam Success Science comes with a FREE eBook! See the inside front cover for details. Gill Education eBooks are accessible both online and offline

Skills for Exam Success is a comprehensive examination guide and practice book for Higher Level Junior Cycle English. Carefully compiled using all available information on the examination and marking schemes, this book helps Higher Level students achieve maximum marks in the final exam. Each section of the book focuses on specific skills for confident and successful examination writing: Test Your Critical Vocabulary: Creates a bank of important terms and definitions to use in responding to literary texts. Short Sample Questions: Provides structured practice in answering exam questions, including rough work and answer lines to mirror the exam. Responding to Shakespeare: Prepares students to answer questions on Shakespeare's language, characters, dramatic techniques, stagecraft, etc Write about Your Studied Texts: Gives templates and scaffolding to answer on studied texts and key moments. Write for a Variety of Purposes: Practice in writing to narrate, inform, persuade, engage, etc. Full Sample Examination Papers: Presents three full thematic sample papers for extra practice, with a Skills for the Final Examination introduction that reinforces the examination answer technique taught throughout the book, i.e. Focus, Ideas, Development, Organisation and Language. Answers: Provides answers/sample answers for every section in the book. Common Errors: Fine-tunes literacy by identifying common errors and training students to eliminate them in written examination answers. Special attention is also given to developing students' understanding of examination vocabulary. THE AUTHOR PAULINE KELLY taught in Marian College for 24 years. National leader of Junior Cycle English Support Service for two years, she is now an associate facilitator. She has worked as an English advisor and trainer with SLSS and PDST and is a teacher trainer with Trinity, Maynooth and UCD Schools of Education. Pauline is the author/co-author of many best-selling English textbooks, including the market-leading Fire and Ice series for Junior Cycle English.

Ireland 1973: a very different world. But a tiny village in County Dublin was about to lose its innocence for ever. On a bright and sunny June afternoon, a seven-year-old boy was left in the care of his teenage neighbour. No one knew, or would even have dreamed of suspecting, that the teenager was a Satanist. The two went out to the fields to look for rabbits. The child was never seen alive again. For the first time, in *The Boy in the Attic*, David Malone reveals the exact events of that summer day: how the youngster was lured to his death, how the teenager came to delve so deeply into the occult and the nightmarish scene awaiting police when they entered the attic. But there is another disturbing question - how is it that this murder, which was easily one of the most shocking and horrific in living memory, was barely reported upon at all? Why have you never heard of the boy in the attic until now?
