Letters from Motherless Daughters is a compilation of the letters Hope Edelman received in response to her groundbreaking New York Times–bestseller, *Motherless Daughters*. Reaffirming her precious link with motherless women across the country, Edelman presents these moving, honest, and often hopeful letters alongside her own insight to offer readers the opportunity to further learn from loss. The words of these brave women illustrate the profound pain, astounding strength, and undying perseverance of living through the loss of one's mother without ever outliving the need for her. Edelman has added a new introduction and new letters, tailoring this important book to a new generation. *Motherless Daughters* examines the profound effects of the loss of a mother on a woman's identity, personality and life choices, both immediately and as her life goes on. Hope Edelman, who lost her mother at seventeen, searched for a book like this, and wh

"Morbid and illuminating" (*Entertainment Weekly*)—a young mortician goes behind the scenes of her curious profession. Armed with a degree in medieval history and a flair for the macabre, Caitlin Doughty took a job at a crematory and turned morbid curiosity into her life's work. She cared for bodies of every color, shape, and affliction, and became an intrepid explorer in the world of the dead. In this best-selling memoir, brimming with gallows humor and vivid characters, she marvels at the gruesome history of undertaking and relates her unique coming-of-age story with bold curiosity and mordant wit. By turns hilarious, dark, and uplifting, *Smoke Gets in Your Eyes* reveals how the fear of dying warps our society and "will make you reconsider how our culture treats the dead" (*San Francisco Chronicle*).

A validating new approach to the long-term grieving process that explains why we feel "stuck," why that's normal, and

how shifting our perception of grief can help us grow—from the New York Times bestselling author of *Motherless Daughters* “This is perhaps one of the most important books about grief ever written. It finally dispels the myth that we are all supposed to get over the death of a loved one.”—Claire Bidwell Smith, author of *Anxiety: The Missing Stage of Grief* Aren’t you over it yet? Anyone who has experienced a major loss in their past knows this question. We’ve spent years fielding versions of it, both explicit and implied, from family, colleagues, acquaintances, and friends. We recognize the subtle cues—the slight eyebrow lift, the soft, startled “Oh! That long ago?”—from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate. Because of the common but false assumption that grief should be time-limited, too many of us believe we’re grieving “wrong” when sadness suddenly resurges sometimes months or even years after a loss. *The AfterGrief* explains that the death of a loved one isn’t something most of us get over, get past, put down, or move beyond. Grief is not an emotion to pass through on the way to “feeling better.” Instead, grief is in constant motion; it is tidal, easily and often reactivated by memories and sensory events, and is re-triggered as we experience life transitions, anniversaries, and other losses. Whether we want it to or not, grief gets folded into our developing identities, where it informs our thoughts, hopes, expectations, behaviors, and fears, and we inevitably carry it forward into everything that follows. Drawing on her own encounters with the ripple effects of early loss, as well as on interviews with dozens of researchers, therapists, and regular people who’ve been bereaved, New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities. With guidance for reframing a story of loss, finding equilibrium within it, and even experiencing renewed growth and purpose in its wake, she demonstrates that though grief is a lifelong process, it doesn’t have to be a lifelong struggle.

The classic New York Times bestseller that has helped millions of women cope with and heal from the grief of losing their mothers Although a mother's mortality is inevitable no book has discussed the profound lasting and far reaching effects of this loss until *Motherless Daughters*, which became an instant classic. More than twenty years later, it is still the go-to book that women of all ages look to for comfort, help, and understanding when their mother dies. Building on interviews with hundreds of mother loss survivors, Edelman's personal story of losing her mother, and recent research in grief and psychology, *Motherless Daughters* reveals the shared experiences and core identity issues of motherless women: Why the absence of a nurturing hand shapes a woman's identity throughout her lifespan How present day relationships are defined by past losses How a woman can resolve past conflicts and move toward acceptance and healing Why grief really is not a linear passage but an ongoing cyclical journey How the legacy of mother loss shifts with the passage of time

A thoughtful guide to getting through the loss of a mother.

Kate Spencer lost her mom to cancer when she was 27. In *The Dead Moms Club*, she walks readers through her experience of stumbling through grief and loss, and helps them to get through it, too. This isn't a weepy, sentimental story, but rather a frank, up-front look at what it means to go through gruesome grief and come out on the other side. An empathetic read, *The Dead Moms Club* covers how losing her mother changed nearly everything in her life: both men and women readers who have lost parents or experienced grief of this magnitude will be comforted and consoled. Spencer even concludes each chapter with a cheeky but useful tip for readers (like the "It's None of Your Business Card" to copy and hand out to nosy strangers asking about your passed loved one).

"Lyrical and emotionally gutting." —O, THE OPRAH MAGAZINE "Intellectually satisfying [and] artistically profound."
—KIRKUS REVIEWS (STARRED REVIEW) "Mesmeric."—THE PARIS REVIEW "Vividly awesome and truly great."
—EILEEN MYLES "Gorgeous, gutting, unforgettable." —LENI ZUMAS "Brilliant." —MICHELLE TEA An arresting memoir equal parts refugee-coming-of-age story, feminist manifesto, and meditation on motherhood, displacement, gender politics, and art that follows award-winning writer Sophia Shalmiyev's flight from the Soviet Union, where she was forced to abandon her estranged mother, and her subsequent quest to find her. Russian sentences begin backward, Sophia Shalmiyev tells us on the first page of her striking lyrical memoir. To understand the end of her story, we must go back to the beginning. Born to a Russian mother and an Azerbaijani father, Shalmiyev was raised in the stark oppressiveness of 1980s Leningrad (now St. Petersburg), where anti-Semitism and an imbalance of power were omnipresent in her home. At just eleven years old, Shalmiyev's father stole her away to America, forever abandoning her estranged alcoholic mother, Elena. Motherless on a tumultuous voyage to the states, terrified in a strange new land, Shalmiyev depicts in urgent, poetic vignettes her emotional journeys through an uncharted world as an immigrant, artist, and, eventually, as a mother of two. As an adult, Shalmiyev voyages back to Russia to search endlessly for the mother she never knew—in her pursuit, we witness an arresting, impassioned meditation on art-making, gender politics, displacement, and most potently, motherhood.

Virginia Woolf introduced us to the "Angel in the House", now prepare to meet... *The Bitch In the House*. This e-book includes an exclusive excerpt from *The Bitch is Back: Older, Wiser, and Getting Happier*, a second collection of essays from nine of the contributors featured in *The Bitch in the House* and from sixteen captivating new voices. Women today have more choices than at any time in history, yet many smart, ambitious, contemporary women are finding themselves angry, dissatisfied, stressed out. Why are they dissatisfied? And what do they really want? These questions form the premise of this passionate, provocative, funny, searingly honest collection of original essays in which twenty-six women

writers—ranging in age from twenty-four to sixty-five, single and childless or married with children or four times divorced—invite readers into their lives, minds, and bedrooms to talk about the choices they've made, what's working, and what's not. With wit and humor, in prose as poetic and powerful as it is blunt and dead-on, these intriguing women offer details of their lives that they've never publicly revealed before, candidly sounding off on:

- The difficult decisions and compromises of living with lovers, marrying, staying single and having children
- The perpetual tug of war between love and work, family and career
- The struggle to simultaneously care for ailing parents and a young family
- The myth of co-parenting
- Dealing with helpless mates and needy toddlers
- The constrictions of traditional women's roles as well as the cliches of feminism
- Anger at laid-back live-in lovers content to live off a hardworking woman's checkbook
- Anger at being criticized for one's weight
- Anger directed at their mothers, right and wrong
- And—well—more anger...

"This book was born out of anger," begins Cathi Hanauer, but the end result is an intimate sharing of experience that will move, amuse, and enlighten. *The Bitch in the House* is a perfect companion for your students as they plot a course through the many voices of modern feminism. This is the sound of the collective voice of successful women today—in all their anger, grace, and glory. From *The Bitch In the House*: "I believed myself to be a feminist, and I vowed never to fall into the same trap of domestic boredom and servitude that I saw my mother as being fully entrenched in; never to settle for a life that was, as I saw it, lacking independence, authority, and respect." —E.S. Maduro, page 5 "Here are a few things people have said about me at the office: 'You're unflappable.' 'Are you ever in a bad mood?' Here are things people—okay, the members of my family—have said about me at home: 'Mommy is always grumpy.' 'Why are you so tense?' 'You're too mean to live in this house and I want you to go back to work for the rest of your life!'" —Kristin van Ogtrop, page 161 "I didn't want to be a bad mother I wanted to be my mother-safe, protective, rational, calm-without giving up all my anger, because my anger fueled me." — Elissa Schappell, page 195

Coping With Loss The grieving process: Ty Alexander of *Gorgeous in Grey* is one of the top bloggers today. She has a tremendous personal connection with her readers. This is never more apparent than when she speaks about her mother. The pain of loss is universal. Yet, we all grieve differently. For Alexander, the grieving process is one that she lives with

day-to-day. Learning from her pain, Alexander connects with her readers on a deeply emotional level in her debut book, *Things I Wish I Knew before My Mom Died: Coping with Loss Every Day*. From grief counseling to sharing insightful true stories, Alexander offers comfort, reassurance, and hope in the face of sorrow. Coping with loss: In her early 20's reality smacked Ty in the face. She was ill equipped to deal with the emotional and intellectual rollercoaster of dealing with her mom's illness. Through her own trial and error, she found a way to be a caregiver, patient advocate, researcher, and a grieving daughter. She wrote *Things I Wish I Knew before My Mom Died: Coping with Loss Every Day* to help others find the "best" way to cope and move on, however one personally decides what that means. Mourning and remembrance: In the chapters of this soul-touching book, mourners will find meaning and wisdom in grieving and the love that will always remain. Each chapter is a study and lesson in coping with loss: • Chapter 1: We've been duped, everyone dies! • Chapter 2: The truth about my moderately dysfunctional family • Chapter 3: The Art Of Losing • Chapter 4: The how of grieving • Chapter 5: How to be obsessively grateful • Chapter 6: Dear Mama

From the bestselling author of "Motherless Daughters" comes the real-life story of one woman's search for a cure to her family's escalating troubles, and the leap of faith that took her on a journey to an exotic place and a new state of mind. At eighteen years old, with no high school diploma, a growing rap sheet, and a failed relationship with his estranged father, Timothy J. Hillegonds took a one-way flight from Chicago to Colorado in hopes of leaving his mounting rage and frustration behind. His plan was simple: snowboard, hang out, live an uncomplicated life. *The Distance Between* chronicles how Hillegonds's plan went awry after he immediately jumped head first into a turbulent relationship with April, a Denny's coworker and single mother. At once passionate and volatile, their relationship was fueled by vodka, crystal methamphetamine, and poverty—and it sometimes became violent. Mere months after moving to the mountains, when the stakes felt like they couldn't be higher, Hillegonds learned April was pregnant with his child. More than just a harrowing story of addiction and abuse or a simple mea culpa, *The Distance Between* is a finely wrought exploration of, and reckoning with, absent fathers, fatherhood, violence, adolescent rage, white male privilege, and Hillegonds's own toxic masculinity. With nuance and urgency, *The Distance Between* takes readers through the grit of life on the margins while grappling with the problematic nature of one man's existence.

Challenging conventional wisdom on grief, a pioneering therapist offers a new resource for those experiencing loss When a painful loss or life-shattering event upends your world, here is the first thing to know: there is nothing wrong with grief. "Grief is simply love in its most wild and painful form," says Megan Devine. "It is a natural and sane response to loss." So, why does our culture treat grief like a disease to be cured as quickly as possible? In *It's OK That You're Not OK*, Megan Devine offers a profound new approach to both the experience of grief and the way we try to help others who

have endured tragedy. Having experienced grief from both sides—as both a therapist and as a woman who witnessed the accidental drowning of her beloved partner—Megan writes with deep insight about the unspoken truths of loss, love, and healing. She debunks the culturally prescribed goal of returning to a normal, “happy” life, replacing it with a far healthier middle path, one that invites us to build a life alongside grief rather than seeking to overcome it. In this compelling and heartfelt book, you’ll learn:

- Why well-meaning advice, therapy, and spiritual wisdom so often end up making it harder for people in grief
- How challenging the myths of grief—doing away with stages, timetables, and unrealistic ideals about how grief should unfold—allows us to accept grief as a mystery to be honored instead of a problem to solve
- Practical guidance for managing stress, improving sleep, and decreasing anxiety without trying to “fix” your pain
- How to help the people you love—with essays to teach us the best skills, checklists, and suggestions for supporting and comforting others through the grieving process

Many people who have suffered a loss feel judged, dismissed, and misunderstood by a culture that wants to “solve” grief. Megan writes, “Grief no more needs a solution than love needs a solution.” Through stories, research, life tips, and creative and mindfulness-based practices, she offers a unique guide through an experience we all must face—in our personal lives, in the lives of those we love, and in the wider world. It’s OK That You’re Not OK is a book for grieving people, those who love them, and all those seeking to love themselves—and each other—better.

Parentless Parents is the first book to show how the absence of grandparents impacts everything about the way mothers and fathers raise their children--from everyday parenting decisions to the relationships they have with their spouses and in-laws. For the first time in U.S. history, as the average age of women giving birth has increased significantly, millions of children are at risk of having fewer years with their grandparents than ever before. How has this substantial shift affected parents and kids? Journalist, award-winning television producer, and parentless parent Allison Gilbert has polled and studied more than 1,300 parentless parents from across the United States and a dozen other countries to find out. Through her pioneering research, Gilbert not only shares her own story and the significant and poignant effect that this trend has had on her and hundreds of other families, but also the myriad ways these mothers and fathers have learned to keep the memory of their parents alive for their children, and to find the support and understanding they need.

"Anguished, beautifully written... The Long Goodbye is an elegiac depiction of drama as old as life." -- The New York Times Book Review From one of America's foremost young literary voices, a transcendent portrait of the unbearable anguish of grief and the enduring power of familial love. What does it mean to mourn today, in a culture that has largely set aside rituals that acknowledge grief? After her mother died of cancer at the age of fifty-five, Meghan O'Rourke found that nothing had prepared her for the intensity of her sorrow. In the first anguished days, she began to create a record of her interior life as a mourner, trying to capture the paradox of grief--its monumental agony and microscopic intimacies--an endeavor that ultimately bloomed into a profound look at how caring for her mother during her illness changed and strengthened their bond. O'Rourke's story is one of a life gone off the rails, of how watching her mother's illness--and separating from her husband--left her fundamentally altered. But it is also one of resilience, as she observes her family persevere even in the face of immeasurable loss. With lyricism and unswerving candor, The Long Goodbye conveys the fleeting moments of joy that make up a life, and the way memory can lead us out of the jagged darkness of loss. Effortlessly blending research and reflection, the personal and the universal, it is not only an exceptional memoir, but a necessary one.

In her acclaimed New York Times bestseller, *Motherless Daughters*, Hope Edelman explored the profound and lasting effects of mother loss, as well as her own search for healing. Now, in her compelling new work, Edelman explores another complex, life-changing relationship, the intricate bond between generations. Drawing from her own experience and the recollections of over seventy other granddaughters, Edelman explores the three-generation triangle from which women develop their female identities: the grandmother-mother-daughter relationship. With eloquent personal testimony, she demonstrates the vital roles grandmothers have played in their granddaughters' lives, as a source of unconditional love, family values and traditions, and backup parent, the ultimate safety net. Here are grandmothers in all their glory: The "Benevolent Manipulator", whose love for her family is matched only by her desire for control; The "Gentle Giant", awesome, respected, who possesses a quiet, behind-the-scenes power; The "Autocrat", who rules her extended family like a despot; The "Kinkeeper", the family hub, who offers a sense of cohesion to the extended clan. With insight and compassion, Edelman probes this unique and emotionally-charged relationship in a book that is a true celebration of an extraordinary bond--and a must read for every woman.

Life goes on. But does it really? When my beautiful 47 year old mother, Gina, was diagnosed with stage four Lung Cancer, my world as I knew it came tumbling down. As a 23 year old girl, ready to start a life of my own, this heart wrenching news was more than I could bear. Together we battled her terminal illness. Along the way we shared happiness, sadness, laughter, love, hope & heartache. We went through the motions, the ups and downs. I stood by her side as she inspired many others who were also fighting this beast they call cancer, to keep on fighting. We kept the hope strong as she had an army behind her cheering her on, every step of the way. When my mom passed away only ten months after diagnosis I found treasures that she had left behind that told a story of a mother's undying love. Treasures that will forever remain in my mind, body, heart, and soul. Treasures that brought a new hope and a profound reason to carry on the life she loved to live so very much. This true story was written with the intent to inspire many. To those who are fighting the fight, keep on fighting. To those who have experienced tremendous loss, we must remember that even through the darkest of days, life does in fact go on.

What do you do when you lose someone you love? What do you do when that someone is your mother? There is no correct answer to that question and somehow our natural instincts kick in and we find a way to go on. The thing about grieving is that nobody can tell you how to grieve. There is no right or wrong way and words, although they sometimes help, may never be enough. After losing my 48 year old mother when I was just 24 years old, I have found a way to live creatively with a bruised and broken heart and I hope my story will inspire you to do the same. In this book I will share my journey through life, love, loss, hope, and a reason to believe that even after losing someone we love tremendously, Life Still Goes On.

While the death of a parent is always painful, losing both is life-altering. When author Allison Gilbert lost both parents at age 32, she could not find any books that spoke to her with the same level of compassion and reassurance that she found in the support group she belonged to, so she decided to write one of her own. The result is a sensitive and candid portrayal of loss that brings

A Prize-winning Memoir *Dont Call Me Mother: Breaking the Chain of Mother-Daughter Abandonment* I wanted to tell the secret stories that my great-grandmother Blanche whispered to me on summer nights in a featherbed in Iowa. With two new chapters and significant changes throughout reflecting Deits's ongoing experience in counseling, *Life after Loss* is an essential "roadmap for those in grief" (Lawrence J. When Hope Edelman, author of the New York Times bestseller *Motherless Daughters*, became a parent, she found herself revisiting the loss of her mother in ways she had never anticipated. Now the mother of two young girls, Edelman set out to learn how the loss of a mother to death or abandonment can affect the ways women raise their own children. In *Motherless Mothers*, Edelman uses her own story as a prism to reveal the unique anxieties and desires that these women experience as they raise their children without the help of a living maternal guide. In an impeccably researched, luminously written book enriched by the voices of the mothers themselves—and filled with practical insight and advice from experienced professionals—she examines their parenting choices, their triumphs, and their fears, and offers motherless mothers the guidance and support they want and need.
