The economy of a country forms the basis of the standard of living of its citizens. Economics requires deep study of demand,

supply, fluctuations and the behaviour of money. But how does it work? This cannot be understood by people who do not have the right knowledge in the discipline. But economists are the intellectuals who can actually study, analyze and help in stabilizing the economy of the country. In order to make sure that those who form the framework of the country are best of all, hence, they should be taught by the best teachers. The making of such teachers is a rather difficult process and is followed by various stages of testing. National Testing Agency (NTA) conducts the entry-level examination for scholars who wish to pursue Economics as their subject. With us, at EduGorilla you will be aided with numerous UGC NET Economics practice tests 2020.
