Want to ensure effective and efficient execution of the Risk Assessment Standards? AICPA has the resources you need: Audit Risk Assessment Tool (available online only) Assessing and Responding to Audit Risk in a Financial Statement Audit - AICPA Audit Guide The Audit Risk Assessment Tool walks an experienced auditor through the risk assessment procedures and documents those decisions necessary to prepare an effective and efficient audit program. Designed to be used in lieu of cumbersome checklists, it provides a top down risk-based approach to the identification of high risk areas to allow for appropriate tailoring of audit programs which will result in audit efficiencies. The tool is available in the Online Subscription format and includes access to the full Risk Assessment Guide. The AICPA Audit Guide Assessing and Responding to Audit Risk in a Financial Statement Audit is the definitive source for guidance on applying the core principles of the risk-based audit methodology that must be used on all financial statement audits. This guide is written in an easy-to-understand style that enables auditors of all experience levels to find answers to the issues they encounter in the field. Unique insights, examples and a comprehensive case study clarify critical concepts and requirements. Disclaimer This Audit Risk Assessment Tool is designed to provide illustrative information with respect to the subject matter covered and is recommended for use on audit engagements that are generally smaller in size and have less complex auditing and accounting issues. It is designed to help identify risks, including significant risks, and document the planned response to those risks. The Audit Risk Assessment Tool should be used as a supplement to a firm's existing planning module whether in a firm-based or commercially provided methodology. The Audit Risk Assessment Tool is not a complete planning module. The AICPA recommends the Audit Risk Assessment Tool be completed by audit professionals with substantial accounting, auditing and specific industry experience and knowledge. For a firm to be successful in improving audit quality and efficiencies, it is recommended that a 5+ years experienced auditor completes the Audit Risk Assessment Tool or the engagement team member with the most knowledge of the industry and client (often Partner in small/medium firms) provides insight to whomever is completing the

ARA Tool. The AICPA recommends this should not be delegated to lower-level staff and just reviewed – it should be completed under the direction of the experienced auditor (if you delegate to inexperienced auditor you will be at risk for less effectiveness and efficiencies because the tool is intended to be completed by an experienced auditor). The Audit Risk Assessment Tool does not establish standards or preferred practices and is not a substitute for the original authoritative auditing guidance. In applying the auditing guidance included in this Audit Risk Assessment Tool, the auditor should, using professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the audit. This document has not been approved, disapproved, or otherwise acted on by a senior committee of the AICPA. It is provided with the understanding that the staff and publisher are not engaged in rendering legal, accounting, or other professional service. This IBM® Redbooks® Product Guide publication describes the IBM FlashSystem® 5200 solution, which is a next-generation IBM FlashSystem control enclosure. It is an NVMe end-to-end platform that is targeted at the entry and midrange market and delivers the full capabilities of IBM FlashCore® technology. It also provides a rich set of software-defined storage (SDS) features that are delivered by IBM Spectrum® Virtualize, including the following features: Data reduction and deduplication Dynamic tiering Thin provisioning Snapshots Cloning Replication Data copy services Transparent Cloud Tiering IBM HyperSwap® including 3-site replication for high availability (HA) Scale-out and scale-up configurations further enhance capacity and throughput for better availability. The IBM FlashSystem 5200 is a high-performance storage solution that is based on a revolutionary 1U form factor. It consists of 12 NVMe Flash Devices in a 1U storage enclosure drawer with full redundant canister components and no single point of failure. It is designed for businesses of all sizes, including small, remote, branch offices and regional clients. It is a smarter, self-optimizing solution that requires less management, which enables organizations to overcome their storage challenges. Flash has come of age and price point reductions mean that lower parts of the storage market are seeing the value of moving over to flash and NVMe--based solutions. The IBM FlashSystem 5200 advances this transition by providing incredibly dense tiers of flash in a more affordable package. With the benefit of IBM FlashCore Module compression and new QLC flash-based technology becoming available, a compelling argument exists to move away from Nearline SAS storage and on to NVMe. With the release of IBM FlashSystem 5200 Software V8.4, extra functions and features are available, including support for new Distributed RAID1 (DRAID1) features, GUI enhancements, Redirect-on-write for Data Reduction Pool (DRP) snapshots, and 3-site replication capabilities. This book is aimed at pre-sales and post-sales technical support and marketing and storage administrators.

Mastering Product Management: A Step-by-Step Guide offers practical, real-world advice on how to create and capture value as a Product Manager. It covers the full product life cycle, from idea discovery through end-of-life. Each section is scannable and concise, around two to three pages. Rather than diving deep into the theoretical background of a given area, it serves as a checklist of the key steps a Product Manager should take to complete a given task. - Source new ideas that succeed - Set a compelling product vision and strategy - Search for profitable new business models - Become a market expert - Effectively manage roadmaps - Ensure a successful product launch - Understand value and price profitably - Build and manage high-performance teams - And much more! This book is a convenient reference guide that you can use throughout your workday. It's meant for Product Managers of all levels and for anyone wishing to

understand what it takes to define, develop, launch, and market new products successfully.
