Coinciding with the 200th anniversary of the publication of *Frankenstein* in 1818, a prize-winning poet delivers a major new biography of Mary Shelley—as she has never been seen before. We know the facts of Mary Shelley’s life in some detail—the death of her mother, Mary Wollstonecraft, within days of her birth; the upbringing in the house of her father, William Godwin, in a house full of radical thinkers, poets, philosophers, and writers; her elopement, at the age of seventeen, with Percy Shelley; the years of peripatetic travel across Europe that followed. But there has been no literary biography written this century, and previous books have ignored the real person—what she actually thought and felt and why she did what she did—despite the fact that Mary and her group of second-generation Romantics were extremely interested in the psychological aspect of life. In this probing narrative, Fiona Sampson pursues Mary Shelley through her turbulent life, much as Victor Frankenstein tracked his monster across the arctic wastes. Sampson has written a book that finally answers the question of how it was that a nineteen-year-old came to write a novel so dark, mysterious, anguished, and psychologically astute that it continues to resonate two centuries later. No previous biographer has ever truly considered this question, let alone answered it.

Jenna is told that she had an accident so horrific it's a miracle that she survived. As Jenna's memories return to her, her confusion grows. This life doesn't feel like hers. This body doesn't feel like hers. What happened while Jenna was asleep? Why do her parents seem so afraid and her grandmother so cold? the answers to those questions will change everything. *The Fox Inheritance*: Jenna, Locke, and Kara have been separated from their bodies, their minds cast off into darkness. The Iron Dream is a metafictional 1972 alternate history novel by Norman Spinrad. The book has a nested narrative that tells a story within a story. On the surface, the novel presents an unexceptional science fiction action tale entitled Lord of the Swastika. This is a pro-fascist narrative written by an alternate history version of Adolf Hitler, who in this timeline emigrated from Germany to America and used his modest artistic skills to become first a pulp-SF illustrator and later a science fiction writer in the L. Ron Hubbard mold (telling lurid, purple-prosed adventure stories under a thin SF-veneer). Spinrad seems intent on demonstrating just how close Joseph Campbell's Hero with a Thousand Faces-and much science fiction and fantasy literature- can be to the racist fantasies of Nazi Germany. The nested narrative is followed by a faux scholarly analysis by a fictional literary critic, Homer Whipple, of New York University.
