This book explores images of schoolteachers in America from the beginning of the 20th century to the present, using a wide range of approaches to scholarship and writing. It is intended for both experienced and aspiring teachers to use as a springboard for discussion and reflection about the teaching profession and for contemplating these questions: What does it mean to be a teacher? What has influenced and sustained our beliefs about teachers? New in the second edition * The focus is shifted to the teaching profession as the 21st century unfolds. * The volume continues to explore teacher images through various genres--oral history, narrative, literature, and popular culture. In the second edition, the authors place more emphasis on the social-political context that has shaped teachers' daily experiences and the teaching profession itself. In the study of teacher images and schooling, the essays draw from feminist research methods and the critical tradition in educational inquiry to probe issues of power and authority, race, social class, and gender. * The emphasis is on the multidimensionality of teacher images rather than normative characterizations. * Six totally new chapters have been written for this new edition: an "invented interview" spanning 100 years of school teaching; portraits of progressive activist teachers; an exploration of teachers in fiction for young adults; a retrospective of the satirical cartoon show, *The Simpsons*; a study of crusading and caring teachers in films; and an overview of progressive classroom practices in "the new millennium." Seven chapters have been thoroughly revised to reflect current scholarship and the authors' evolving knowledge and interests.

A user-friendly guide to making expert decisions on life insurance policies.

A top SAT coach—whose high-scoring strategies earned him \$300 an hour from Manhattan's elite private-school students—now makes his unique, proven secrets available to all. Money can buy academic success, and the SAT is no exception. Harvard honors graduate Eliot Schrefer discovered this lucrative truth when he took a job at the nation's most exclusive test-prep firm. He has helped hundreds of his clients raise their scores an average of 300 points and reel in admission to exclusive colleges. Now, in a guide that is as unique as his tricks, Schrefer brings his extraordinary pointers to every anxious applicant. This user-friendly rescue manual delivers such scoreboosting features as: a killer vocabulary list, including words the SAT has repeated for decades (and why reading *Vanity Fair* magazine is smart test prep) cheap tricks to master the math section (surprise! you learned all you needed to know about SAT math by the eighth grade) how to be a grammar genius without cracking another book (bonus: discover the tiny subset of grammar rules that is the SAT's secret lover) Schrefer writes in a snappy, conversational tone, dishing gossipy anecdotes about former clients while presenting advice not found in competing books. With a design that is as vibrant as a gamer's virtual world, this is the ultimate weapon in the quest for test-score triumph.

Cutting-Edge Test-Taking Methods, Proven To Succeed "With such detailed, thorough guides already available, why do students still have so much trouble passing the Property and Casualty Insurance exam?" That was the question insurance veteran Mike Hanover kept asking himself. After surveying the market, he found his answer: The right test-prep methods had not been put into a book yet. So he sat down carefully put together this unique book and test-prep system - based on his own proven track record of success. Namely, a system that has helped students pass, after all other attempts had failed. Hanover knows the insurance profession from the inside out. He has sold insurance; recruited, trained and managed agents; even directed attorneys and claims adjusters. But most important to you, the author has taught P&C test-prep classes for time-pressured people who had not previously been able to pass the test. Students love his classes, because afterwards they walk into the exam room and pass the test. Hanover spent years honing a method of presenting information that's completely different than the traditional "firehose" approach. Traditional test-prep methods ask students to turn themselves into giant mental "sponges" - absorbing massive amounts of unfamiliar information, seemingly at random, and then somehow knowing just how to squeeze out the right droplet of information when it comes time to answer a question in the exam room. Of course, the traditional approach doesn't work for a lot of people in the real world. Hanover's "SuperTutor" approach is different. It's designed to match closely how learning actually takes place in adults. This method organizes small, manageable clusters of information around simple core concepts. This means first, you easily internalize each concept. And that makes it much easier to answer any given test question correctly. Why is it easier? Because with the SuperTutor method, you answer from a position of strength. You already know the core concept. Your confidence is high, and the right answer is obvious. If you're getting ready for the property and casualty insurance exam, let

SuperTutor's exam prep guide help you pass your test. With more than 800 different sample questions with easy to understand explanations, this book helps you quickly understand the terms and concepts you will see on your property and casualty exam, so you can pass your test the first time. And since it is electronic, you can start studying right away. If you don't have a Kindle Device, you can access this material on most computers or tablets with the Kindle Application, or read it online in the Kindle Cloud Reader. The first part of this book covers general insurance, personal lines insurance, and commercial insurance. Each section contains 25 questions followed by the question with the right answer, allowing you to focus your study time. After you have studied the individual sections, there are three 150-question practice exams using questions you have already studied. Use this to verify you have mastered the material. The final study section is an assessment test. It contains 150 questions you have not seen before. Each question is similar to what you have studied, but worded differently. People who score at least 80% on this section almost always pass their state insurance exam. If you're short on time, don't worry! Start with the assessment test, and use that to determine which areas you need the most practice with. The SuperTutor method is streamlined, to help you maximize your study time and pass the test easily. Pick up SuperTutor Property & Casualty Exam Prep today, so you can pass your test and begin a new, rewarding career.

Sundara fled Cambodia with her aunt's family to escape the Khmer Rouge army when she was thirteen, leaving behind her parents, her brother and sister, and the boy she had loved since she was a child. Now, four years later, she struggles to fit in at her Oregon high school and to be "a good Cambodian girl" at home. A good Cambodian girl never dates; she waits for her family to arrange her marriage to a Cambodian boy. Yet Sundara and Jonathan, an extraordinary American boy, are powerfully drawn to each other. Haunted by grief for her lost family and for the life left behind, Sundara longs to be with him. At the same time she wonders, Are her hopes for happiness and new life in America disloyal to her past and her people?

Like politics, journalism has been turned topsy-turvy by the presidency of Donald Trump. Covering Politics in the Age of Trump takes a wide-ranging view of the relationship between the forty-fifth president and the Fourth Estate. In concise, illuminating, and often personal essays, twenty-four top journalists address topics such as growing concerns about political bias and journalistic objectivity; increasing consternation about the media's use of anonymous sources; the practices journalists employ to gain access to wary administration officials; and reporters' efforts to improve journalism in an era of twenty-four-hour cable news. Contributors include: Mark Ballard, Peter Bhatia, Rebecca Buck, Carl Cannon, Jill Colvin, Charlie Cook, McKay Coppins, Mary C. Curtis, Paul Farhi, Quint Forgey, Major Garrett, Ginger Gibson, "Fin" Gomez, Jesse J. Holland, Clark Hoyt, Sarah Isgur, Mark Leibovich, Ashley Parker, Fernando Pizarro, Tom Rosenstiel, Frank Sesno, Alexis Simendinger, Steve Thomma, and Salena Zito. The Trump administration's contentious relationship with the media has altered the public's expectations regarding the news and national politics. In Covering Politics in the Age of Trump, top political reporters explore this dynamic, relaying stories from the campaign trail to the briefing room that illustrate the new challenges faced by journalists working in the age of "fake news."

Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear Water in a Pool Painted Black and other publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

For readers seeking deeper insights, 'The Google Way' investigates the history and unconventional strategies that make Google a very different (and very inspiring) company.

This book is an open letter to teachers offering guidance and encouragement for nurturing students in ways that make teaching and learning meaningful. The authors promote an approach to teaching that fosters self-knowledge, creativity, curiosity, and an appreciation for our planet. Central to their philosophy is the question of what we humans need in order to live meaningful lives, and the answer lies in healthy relationships with ourselves, each other, and the world.

Change is coming to insurance. The tradition-bound P&C industry is on the cusp of the most radical change since the invention of the automobile. And leaders are unprepared for the size, scale, and speed of what's to come from the wave of millennials, new technology, and venture capital funding coming our way. Insurance has been largely immune to upheavals for reasons that startups do not comprehend. Brand recognition, reams of customer data, legal contracts and regulation all make insurance much harder to conquer for insurtech startups. But this time is truly different. Forces have been unleashed that will upend the industry sooner than you think. Collaborate or compete? Start small or go big? Pure tech play or MGA? The End of Insurance As We Know It bridges the divide between the traditional players, startups, and investors to show the areas where opportunities for disruption are ripe and what technologies you need to know about to stay relevant in our revolutionary time. Learn why insurance is the perfect digital product and gain a competitive edge no matter where you stand today in the ecosystem. Rob Galbraith has 20 years of experience implementing innovative ideas in the P&C insurance industry to expand markets and improve profitability. Known as

The Most Interesting Man in Insurance, Rob is a frequent speaker at industry conferences, recognized thought leader, and insurtech influencer.

Ronney is an introverted young woman with a disgraceful appearance. She lives humbly in one of the poorest neighborhoods of Sheryl Valley, a town corrupted by the mafia in Southern California. With no diploma, she works hard in her parents' restaurant and provides voice-overs for children's animated movies during the weekend. In accordance with a long-standing family tradition, Ronney's twenty-fifth birthday celebration comes with a dare from her cousins: she must knock on the front door of the infamous Khan household. The Khans' reputation precedes them, rumored to be in association with the mafia. But when Ronney knocks on the door, before she has the chance to run, the Khan family matriarch, Camilia, takes an interest in Ronney. Ronney's lack of conventional beauty and disinterest in fashion draws Camilia in, leading her to offer Ronney the position of personal assistant to her eldest son, Yeraz, with a substantial salary at stake. It's an offer Ronney cannot refuse. To keep her job, Ronney's task is simple: do not fall in love with Yeraz. "Easy," she thinks. But what if destiny decides otherwise? Ugly Ronney is a romance in which the heroes enter the gallery of legendary lovers.

As we gain access to more and more knowledge and information online, the future will belong to those who are powerful, literate, curious learners. That means emphasis in classrooms must move toward helping students develop the skills, literacies, and dispositions to be powerful, self-organized learners. Teachers who are themselves master learners in new,

modern contexts are crucial to making that happen.

Completely updated to report the latest research in child development and learning, Positive Discipline for Preschoolers will teach you how to use methods to raise a child who is responsible, respectful, and resourceful. Caring for young children is one of the most challenging tasks an adult will ever face. No matter how much you love your child, there will be moments filled with frustration, anger, and even desperation. There will also be questions: Why does my four-year-old deliberately lie to me? Why won't my three-year-old listen to me? Should I ever spank my preschooler when she is disobedient? Over the years, millions of parents just like you have come to trust the Positive Discipline series and its commonsense approach to child-rearing. This revised and updated third edition includes information from the latest research on neurobiology, diet and exercise, gender differences and behavior, the importance of early relationships and parenting, and new approaches to parenting in the age of mass media. In addition, this book offers new information on reducing anxiety and helping children feel safe in troubled times. You'll also find practical solutions for how to: - Avoid the power struggles that often come with mastering sleeping, eating, and potty training - See misbehavior as an opportunity to teach nonpunitive discipline—not punishment - Instill valuable social skills and positive behavior inside and outside the home by using methods that teach important life skills - Employ family and class meetings to tackle behavioral challenges - And much, much more!

Property & Casualty Exam Practice Questions are the simplest way to prepare for the Property & Casualty Insurance Exam. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more, or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our Property & Casualty Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our Property & Casualty Exam Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.

In this definitive collection of today's most influential learning theorists, sixteen world-renowned experts present their understanding of what learning is and how human learning takes place. Professor Knud Illeris has collected chapters that explain both the complex frameworks in which learning takes place and the specific facets of learning, such as the acquisition of learning content, personal development, and the cultural and social nature of learning processes. Each international expert provides either a seminal text or an entirely new précis of the conceptual framework they have developed over a lifetime of study. Elucidating the key concepts of learning, Contemporary Theories of Learning provides both the perfect desk reference and an ideal introduction for students. It will prove an authoritative guide for researchers and academics involved in the study of learning, and an invaluable resource for all those dealing with learning in daily life and work. It provides a detailed synthesis of current learning theories... all in the words of the theorists themselves. A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of The Rising Sun and Infamy. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese

records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. In *Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.
